

October 2023 - Dominica

MAPACTION Training - Day 3

SIMULATION - EXERCISE ONLY

We've just had a phone call from the NDC who says:

“Can someone lay their hands on risk mapping of storm surge and landslides, and I need a list and map of where all the hurricane shelters and other critical infrastructure locations are for assessment planning this weekend.

“We'll want to do some assessments in the next couple of days of damage and needs, so can we make sure everyone is up to speed with the mobile app to collect data.”
