

Email from the NDC

Dear All

Please find attached the data from the recent needs assessment which comes from the Kobo. I haven't seen the details but if you can give me some visuals on at least 2 of the questions asked - e.g. number of households affected, the numbers needing different amounts in each location, that would be useful. I'd like JPEG versions of the maps so we can insert in a report we can give to the VIPs.

Thank you in advance of your work on this.
